

```
class Student
{
    int id;
    String name;
    public static void main(String args[])
    {
        Student s1 = new Student();
        System.out.println(s1.id);
        System.out.println(s1.name);
    }
}
```

#### OUTPUT:

```
C:\Users\ABC\Downloads\EXPIREMENT\Classes & objects> java Student.java
0
null
C:\Users\ABC\Downloads\EXPIREMENT\Classes & objects>_
```
